DHARWAR

Ref. _ _ _ 28-RC/42. 26th July, 1942.

The Deputy Secretary to the Government of Bombay,
Public Works Department,
B o m b a y.

Sir,

Re: Dharwar Electric License, 1926 -
Surcharge on the bill for sale of energy.

We beg to approach you in the matter of abnormal increase in the prices of commodities essential for satisfactory working and maintenance of an electrical undertaking, especially of fuel oil which forms a major and important item of expenditure of a power station and the price of which has risen up from Rs.58/- per ton to Rs.89/- per ton F.O.R. Bombay, i.e. about 54% rise in the fuel rate alone.

Railway freight has also been raised by 12½% and to add to that the railway transport not being timely available in consequence of the acute shortage of tank-wagons, other modes of transport, viz. taking oil in barrels by railway or motor trucks, though highly expensive, have to be resorted to.

Generally, the tariff for the supply of energy is based on the normal cost of fuel and other materials essential for generation and distribution of electrical energy. Now, as the prices of fuel and other materials have increased abnormally, it has become necessary to levy a surcharge on the amount of the bill for the sale of energy to the

the consumer with a view to compensate the increase in the expenditure, as otherwise the undertaking would be working at a loss.

We understand that taking the above facts into consideration, the B.B. & C.I. and G.I.P. Railways have agreed to pay excess charge to some of the licensees in this presidency though no provision is made in their agreements with the licensees for such a emergency increase in the rate. We also understand that Government has allowed some of the licensees in this presidency to levy such a surcharge.

Therefore, in the light of the circumstances explained above, we request that the levy of a surcharge of 0.3% on the amount of the bill to the consumers for the sale of energy for each Rupee of increase in the rate of fuel oil above Rs.58/- per ton F.O.R. Bombay may kindly be sanctioned early.

We beg to remain,

Ref. 28-RC/42. 15th November, 1942.

The Deputy Secretary to the Government of Bombay,
Public Works Department,
Bombay.

Sir,

Re: Restricted hours of supply.

+ will be hurt us. if reqd

We beg to inform you that as per the Order No.E.L.C., dated the 20th August 1942, received from the District Magistrate, Dharwar, our hours of supply of electrical energy has been restricted from the 22nd August 1942.

It can be observed from the attached comparative statement that the restriction in the normal hours of supply has affected our revenue to the extent of about Rs.800/- per month, as compared to last year, amounting approximately to Rs.10,000/- annually; and this reduction would not enable us either to give any return to the shareholders over their investment or provide adequate depreciation. Moreover, the abnormal rise in the prices of electrical goods has handicapped the progress of the undertaking since the commencement of the war and the scope for any further expansion has been totally stopped. The fuel and lubricating oil prices have increased by about 54%. Original spare parts of the engines are firstly unavailable and secondly it costs several times higher than the original ones to get them locally made even though they are not so serviceable. Dearness allowance and increment to salaries have also to be given to staff due to the present difficult living conditions. All these factors have decreased the revenue and at the same increased the expenditure.

Under these circumstances, unless we are given adequate protection by way of levy of a surcharge on the energy sales, we are afraid that the undertaking would be put to a great loss.

We beg to remain,
Sir,
Your most obedient servants,

Ref. 28-RC/42. 20th December, 1942.

The Deputy Secretary to the Government of Bombay,
Public Works Department,
Bombay.

Sir,

Re: Dharwar Electric License - Tariff.

We beg to enclose herewith a comparative statement of energy sales for the month of November 1942, from which it will be observed that our revenue has been affected to the extent of about Rs.700/- for that month as compared to the same month last year. The fuel oil rate has also again increased from Rs.96-3-0 to Rs.102-15-0 per ton F.O.R. Bombay installation, leaving apart the constantly increasing prices of other electrical goods essential for generation and distribution of electricity. In view of the growing deficit in the revenue and the increase in the expenditure, the undertaking would be adversely affected if an adequate provision for levying a surcharge on energy sales is not made by the Government very early.

We beg to remain,
Sir,

ELECTRICAL ENGINEER
TO GOVERNMENT
Rcvd. no. 3600
15 JUL 1944
File No.
P. D., BOMBAY

The Electrical Engineer to Government,
Public Works Department,
BOMBAY:

Dear Sir:

RE: WAR COSTS SURCHARGE:

We send you herewith figures of the Company's working as required under the Government Order dated the 16th June 1944. It will be obvious from these figures that the charges recoverable for supply of energy as per Clause 3(2) for 8 months from 1st August 1944 to 31st March 1945 amount to Rs.43,300/- and the deficit recoverable for this period is Rs.55,300/-. Therefore, the War Costs Surcharge works out to 128% on overall charges. But as under Clause 4(i)(a) this surcharge cannot exceed 33⅓%, 33⅓% surcharge may please be sanctioned.

We declare that

(a) the rate of War Costs Surcharge which we deem desirable, calculated in accordance with this order should be 33⅓%.

(b) We append hereto the relevant calculations showing how the rate of the War Costs Surcharge which we deem desirable have been arrived at.

(c) We certify that the aforesaid calculations are correct to the best of our knowledge and belief.

(e) We consider that the Provincial Government should waive the undertaking in the second schedule of the Order for the reason that the War Costs Surcharge under this Order is falling short by 94⅔% and there should be no surplus left as provided for under this schedule. Secondly, if any margin be left at all that will be more essentially required for replacements of the machinery parts which are overdue and which could not be obtained due to hospilities. The present machinery has overstrained due to unavailability of manufacturers original spare parts and unavailability of additional new sets and immediately after the war special attention will have to be given to the present plant as soon as machinery parts are available.

We shall now be most grateful if you will kindly sanction the War Costs Surcharge before 1st August 1944 as the figures are worked out on the basis of the new surcharge to be levied on consumption from 1st August 1944 and due intimation may also be given to the consumers in time.

Yours faithfully,
For THE DHARWAR ELECTRIC SUPPLY CO.LTD.

the Accountant General, Bombay.

2. This has reference to Government Endorsement Public Works Department, No.6331/36, dated the 16th June 1944.

VR.9/8/44.

OFFICE OF THE ACCOUNTANT GENERAL, BOMBAY.

Returned with compliments.

2. The calculations have been checked as far as possible. No details showing how the amount of Rs.13,100 claimed on account of a reduction in the return on capital due to restrictions imposed, under clause 8 of the order has been worked out, have been furnished by the Company. However the surcharge of 33 1/3% claimed by the Company, appears to be reasonable and needs no revision.

3. The Company is not likely to be assessed to excess profits tax, and the working of the year 1942-43 shows a deficit of Rs.5,200. I am therefore of opinion that the execution of the undertaking in the second schedule to the order, may be waived in respect of this Company.

x will be put up if required.

Re:- WAR COSTS SURCHARGE.

THE DHARWAR ELECTRIC SUPPLY CO. LTD., the License Holder under the Dharwar Electric License hereby declares:-

(a). that if at any time the Dharwar Electric Supply Company's Undertaking is assessed to Excess Profits Tax in any chargeable accounting period ending subsequent to the date of War Costs Surcharge is first fixed under the Bombay Electricity Supply (Licensed Undertakings' War Costs) Order, 1944, then the amount of the Excess Profit, after deduction of taxation due thereon, will be recorded and the Company will specially reduce the charges for the supply of energy so as to result in an estimated reduction of gross revenue by an approximately equivalent amount during the next succeeding two Accounting Periods following upon the completion of the relative assessment.

Alternatively, if the Government and the Company agree that such a special reduction of the charges for the supply of energy would, on account of other factors, result only in a temporary variation, or that the reduction would be negligible, the recorded amount will be placed by the Company to a Reserve to be called the "RATES STABILISATION RESERVE" and this reserve will be taken fully and fairly into account in determining the magnitude of any subsequent revision of War Cost Surcharges or charges for supply of energy whether upwards or downwards.

(b). that if at any time during the enforcement of the taxation provisions of the Excess Profits Tax Act, 1940, the Company's Undertaking in any Accounting Period ending subsequent to the date of War Cost Surcharge is first fixed under the aforesaid Order, earns profits exceeding 7 per cent of the average amount of Capital employed in the business during that period, then the amount of the excess, after deducting any smaller amount recorded or set aside to Reserve in terms of clause (a) of this undertaking and the taxation due on such excess, will be taken into account to reduce the charges of energy or be set to the "RATES STABILISATION RESERVE" in the same manner and on the same terms as are set out in the said clause (a).

ELECTRICAL ENGINEER TO GOVERNMENT
Inwd. No. 3599
16 JUL 1944
Fil. J. Rem 31
P. W. D., BOMBAY

The Electrical Engineer to Government,
Public Works Department,
BOMBAY:

Dear Sir:

RE: WAR COSTS SURCHARGE ORDER DATED 16TH JUNE, 1944: STREET LIGHTING:

We invite reference to Clause 9 of the above Order and have to state that differences have arisen between the Municipality and the Company with regard to paying minimum under the agreement. The agreement provides for annual minimum consumption amounting to Rs.12,000/-. The Municipality states that they are not in a position to consume that much minimum on account of restrictions imposed by Government.

We have installed special mains, services and fittings for lamps for 930 street lights for the Municipality and maintenance of street lighting system as above and replacement of bulbs are being done by the Company. The total overall charge for the same was being done at the rate of As.4/- per unit on the basis of the above minimum of Rs.12,000/-.

As restrictions are imposed by the Government, the agreement has become impossible of performance by the Municipality and unless the Municipality is prepared to pay the minimum, the agreement stands terminated.

Under the circumstances we shall thank you to order under Clause 9 of the above Order revised charges and conditions for street lighting payable by the Municipality as under:-

(1) A standing charge of As.9/- per month per lamp point installed, whether lit or not, to cover return on the capital cost incurred and the maintenance charge exclusive of bulbs;

(2) As.2/- per unit for energy consumed; and
(3) Cost of replacement of bulbs.

The above charges were recommended by the Advisory Committee appointed by Government under your Chairmanship to which we agree as they are reasonable.

Yours faithfully,
For THE DHARWAR ELECTRIC SUPPLY CO.LTD.

No.Mun/D 698
Dharwar,13th April 1945.

To

The President,
Dharwar,Municipal Borough,Dharwar.

Ref:-Your No.3601 of 4-12-1945.

Under this office No.Mun/D 698 of 13-12-1944, you were asked to obtain the views of the Municipality on the representatio made by the Company to Government for revision of charges and conditions in respect of the maintenance of the street lighting equipment, under clause 9 of the Government order P.W.D.No.6331/36 of 16-6-1944. You have declined to offer any remarks on the groun that this question was once settled by the Collector under his No.Mun/D 512 of 29-7-1944 and the Company had accepted the terms of the compromise. It is true that this matter was once settled amicably between the Municipality and the Company. Under clause 9 of the Government order quoted above, it is open to the licensee to approach the Provincial Government, and the Provincial Government can from time to time on application, fix revised charges and conditions in respect of the licensees' maintenance of street lighting equipment. There is therefore nothing to prevent the Company from approaching Government in the matter. I would therefore request you to obtain the opinion of the General Body and submit it with your remarks early as Government is pressing for an early reply thereto.

2. It will be seen that the Co. has included in its applcn. under cl. 9(1) of the Bombay Electricity Supply (Licensed Undertakings' War Costs) Order, 1944, the rate for the supply of elecl. energy for street-lighting. Under cl. 9(1) of the Order, however, Govt. can revise charges and conditions only in respect of maintenance of street lighting equipment. In this connexion it is stated for information that the Examiner, O.A. has pointed out such discrepancy in the case of similar applcns. from other licensees. It is, ∴, proposed to inform the Co. to submit fresh proposals wh. come definitely within the purview of cl 9(1) of the Order. Fresh proposals are necessary as the the supply of energy contractual rate and if this is different from that proposed now, the Co. may have to revise its proposal regarding the maintenance charges per lamp installed.
